Why Marmara University ?

Location : Istanbul

Marmara University has many campus located in different central areas in Istanbul. It naturally encourage students to explore Istanbul.

Dynamic

One of the three universities in Turkey which has highest number of students benefits from ERASMUS mobility (including incoming and outgoing)

Rooted

It is one of the oldest educational institutions in Turkey, established in 1883. According to the CWUR (Center for World University Rankings) list of 2023, Marmara University is ranked ninth out of 208 national universities in Turkey and 970th internationally (Top 4.9%)

Experienced

Close to 3,000 academic staff and more than 70,000 students are making contributions to Marmara University's academic activities today, making it one of the most important institutes of higher education in Turkey.

Comprehensive

ERASMUS students can take the advantage of enrolling in courses from different faculties

Multi-lingual + Multi-cultural

Turkish language course (with ECTS) is provided to every erasmus student who wants to enroll.

Education is provided in different languages, Turkish, English, French, German and Arabic; these qualities make Marmara the only multilingual university in Turkey.

Supportive

Each incoming ERASMUS student in Marmara University has a personal mentor to support them through their ERASMUS journey.

The faculty has 2 different undergraduate programmes;
Architecture and Industrial Design
(Both in English)

People

The faculty has the asset of having dynamic and young faculty staff that is led by experienced academicians.
Each course is led by academics specialized in diversified fields of study.

Studio Culture

Students have the opportunity to study in small groups that each one is instructed by a different lecturer or instructor in the architecture and design studio classes.
Each semester, successful professionals who work actively in the sector take part and/or instruct in the studio courses.

Campus

The faculty is located in Mehmet Genç Campus which was converted from an old tobacco factory site with its buildings.
The campus is in a beautiful green area that lies by the seaside in Anatolian side of Istanbul that can be easily reached by public transportation

Collaboration + Education

With its well-established social science faculties of Marmara University, erasmus students of the faculty can broaden their perspective on their study areas.
